

Preserve Patient Dignity by Eliminating Foul Odors

Acute and long-term healthcare facilities deal with odors that come from bodily fluids and infectious wounds.

In addition, these facilities need to consider patients and residents with compromised immune systems when it comes to dealing with odor elimination.

As such, Fresh Wave® IAQ empowers healthcare facilities to completely eliminate any human-originated odors safely and effectively, putting the focus on providing quality care with dignity and respect for a higher quality of life. Deodorize with a pH neutral odor eliminator.

Fresh Wave IAQ is free of harmful VOCs, harsh and flammable chemicals and is recognized for safer chemistry by the Environmental Protection Agency's "Safer Choice" program.

Problem:

Ongoing odors due to bodily fluids, human waste and open wounds.

Solution:

Fresh Wave IAQ products to eliminate odors, not mask them.

Business Benefit:

Cleanliness is a key consideration in the selection of a long-term care or acute care facility. No healthcare environment is truly clean if it smells bad. Fresh Wave IAQ elevates resident and patient dignity, eliminates embarrassing odors and eases tensions between residents/patients, family and staff.

WHAT MAKES FRESH WAVE IAQ DIFFERENT?

- Eliminates Odor – Not a “masking agent”; contains no irritating fragrances.
- Broad Spectrum – Works on virtually every odor.
- Multiple Solutions – Provides delivery methods to address every odor issue.
- Safe – MSDS reads like water.
- HMIS Classifications: Health – 0, Flammability – 0, Reactivity – 0, Protective Equipment – NONE.
- Green – Recognized for safer chemistry by the EPA’s “Safer Choice” program.

Our Science

WHAT IS FRESH WAVE IAQ?

- A proprietary blend of naturally occurring plant extracts, non-ionic food-grade surfactants and purified water

Natural Ingredients

Water

Lime

Pine Needles

Aniseed

Clove

Cedarwood

HOW DOES IT WORK WITHOUT USING “MASKING AGENTS”?

1. Contact/Absorption – Fresh Wave IAQ molecules released into the air or applied to surfaces make contact with odor molecules via opposing electrostatic charges and random contact.
2. Solubility – Fresh Wave IAQ’s formulation enhances the solubility of gases (all odors are gases).
3. Absorption – Enhanced solubility of the gas leads to absorption of the odor gas.
4. Chemical Reaction – Fresh Wave IAQ modifies the odor molecule to a non-odorous state so that the odor can no longer be detected by the human olfactory system.
5. Biodegradation – Food for bacteria.

THE ODOR IS GONE AND WILL NOT RETURN.

IS IT SAFE?

- Flash Point – None
- Tox Data – Non-toxic, per EPA guidelines
- VOC Data – No hazardous VOCs
- Ecological – Does not bioaccumulate
- Fresh Wave IAQ’s Air & Surface Liquid and Gel products have been recognized for safer chemistry by the EPA’s “Safer Choice” program, www.epa.gov/saferchoice

Product & Equipment

2 oz Air & Surface Liquid and Spray
#160411

32 oz Air & Surface Liquid and Spray
#160417

1 Gal Air & Surface Liquid and Spray
#160416

5 Gal Air & Surface Liquid and Spray
#166200

AIR & SURFACE LIQUID AND SPRAY

A rapid and targeted method of odor elimination. Instantly bonds to and eliminates odor molecules. The Air & Surface Liquid and Spray have an initial mild aroma that quickly dissipates. Objective? The absence of odor or annoying fragrance. Advantage? Eliminate fragrances (masking agents) which irritate patients, residents and caregivers.

Ideal For:

- Resident and Patient Rooms, Biohazard Rooms, Restrooms, Nurse's Stations, Lobbies
- Maintenance Carts:
 - Place the Air & Surface 32-ounce Spray on every cart.
- Nursing and Support Staff:
 - Carry the 2-ounce Spray for use on daily rounds.
- Housekeeping:
 - Use the Air & Surface Liquid to eliminate odors from vomit, urine and feces. Add to rinse water in wash or mop buckets. Spray on draperies, furniture, mattresses and linens. Use to eliminate odors that have penetrated or are resting on the surface of wheel chairs, rehabilitation equipment, couches and chairs, massage or treatment tables. Great for microfibers and mop heads.

1.25 oz Ostomy Drops
#160415

GEL

A passive, continuous-release formulation that works around the clock to provide constant odor elimination, day or night. The Gel has an initial mild aroma that quickly dissipates.

Ideal for:

- Resident and Patient Rooms
- Biohazard Rooms
- Rehabilitation and Exercise Rooms
- Restrooms, Soiled Linen Rooms:
 - Place an 8-ounce Gel in the space impacted by the odor. Use a Gel Wall Mount Unit where appropriate.
 - Covers approximately 250 square feet for 30 days.
 - Refill with the 2- or 5-gallon pail. Save approximately 47% per 8 ounces.

Available in	Item Number
8 oz; 12/cs	#160410
2 Gal; 2/cs	#160412
5 Gal; pail	#166201
Wall Mount for 8 oz; 6/cs	#160413

OSTOMY DROPS

The latest innovation from Fresh Wave IAQ natural odor eliminating products.

Ideal For:

- Eliminating odors when changing or replacing an ostomy bag.
- Fresh Wave IAQ Ostomy Drops are registered with the FDA (#FW568)..

Available in	Item Number
1.25 oz; 12/cs	#160415

Product & Equipment (cont'd)

32 oz Spray Gel
#160418

1.3 Gal Spray Gel
#166017

SPRAY GEL

For immediate, targeted odor elimination, spray Fresh Wave IAQ Spray Gel onto the odorous surface to completely cover the source of the odor. This is a topical application. Apply as needed evenly and thoroughly to fully cover the odorous materials. The Spray Gel is designed to allow odorous gases to pass through a barrier of sticky Gel. Upon passing through the Gel layer, the odorous gases are eliminated.

Ideal for:

- Diaper Pails and Odorous Waste Receptacles
- Biohazard Rooms
- Food Waste Dumpsters and Trash Compactors
- Composting Bins or Receptacles

– Apply with the 32-ounce trigger sprayer in smaller applications. For larger applications, apply with a handheld pump-up sprayer, backpack sprayer or airless sprayer. Use a fan or wave tip.

Available in	Item Number
32 oz; 6/cs	#160418
1.3 Gal (168 oz); 2/cs	#166017

1 Gal Carpet & Upholstery Additive
#1077701

5 Gal Carpet & Upholstery Additive
#1077702

CARPET & UPHOLSTERY ADDITIVE

Penetrates deep into pile and fabric weave to bond with and eliminate even the most embedded odors, including must, mildew, urine, feces, perspiration and vomit.

Ideal For:

- Hot Water Extraction (HWE) and Bonnet Cleaning
 - Use in pre-spray, hot water rinse/extraction and/or post-spray using a Hudson sprayer. Apply to fabric using a wash bucket and scrub brush.

Available in	Item Number
1 Gal; 4/cs	#1077701
5 Gal; BIB	#1077702

70 Scoops Vacuum Pearls
#166003

150 Pearl Packs
#1077703

PEARL PACKS & VACUUM PEARLS

Vacuums are an essential cleaning tool, but the odors that linger in carpets and upholstery get sucked up by vacuums and blown out as exhaust. Patients, residents and staff will be annoyed by this “stale and unpleasant” odor. This is one more way to provide them with the absence of odor when they arrive in their rooms.

- Each pack and scoop can last up to 30 days.

Ideal For:

- Deodorizing vacuum cleaner exhaust:
– Pour 1 scoop of Vacuum Pearls, or drop 1 Pearl Pack directly into the vacuum cleaner bag

Available in	Item Number
VacPacks (30 Packs); 6 tb/cs	#166004
VacPacks (150 Packs); 2 pl/cs	#1077703
VacPearls (70 Scoops); 6 tb/cs	#166003
VacPearls (280 Scoops); 2 pl/cs	#1077704

1 Gal Laundry Additive
#530020

5 Gal Laundry Additive
#530021

LAUNDRY ADDITIVE LIQUID

Many commercial detergents are designed to remove dirt and stains but fail to adequately address odor issues. Use the Laundry Additive in addition to detergent to eliminate odors from problem laundry, including must, mildew, urine, feces, vomit and perspiration. Advantage? Expense reduction: Only one wash cycle will be required, resulting in the use of less water, less energy and, most importantly, less labor.

Ideal For:

- Soiled Linens, Uniforms, Microfibers, Mop Heads

Available in	Item Number
1 Gal; 4/cs	#530020
5 Gal; BIB	#530021
5 Gal Concentrate; BIB	#530008

Product & Equipment (cont'd)

M130 Vapor Phase Unit
(mobile) #579100

S130 Vapor Phase Unit
(stationary) #570001

130 CFM VAPOR PHASE UNIT – Mobile (M130) & Stationary (S130)

The Vapor Phase Unit delivery system was developed to provide a “dry” dispersion method for the efficient and economical application of Fresh Wave IAQ Air & Surface Liquid odor eliminator. The Unit disburses sub-micron size Fresh Wave IAQ particles:

- The smaller the droplet, the greater degree of penetration into drapes, ceiling tiles, bedding and carpet, as well as cracks and crevices.
- The smaller the droplets, the more surface area there is to make contact with and eliminate the odor in the air and on surfaces

The Unit dispenses 5,000 cubic feet of vapor per hour, quickly overwhelming larger spaces, penetrating every pore, crack and crevice. A safe alternative to using potentially harmful ozone generators. Advantage? Eliminate “lost” revenues. Safely get the space back to odor-neutral quickly.

Mobile Unit Ideal For:

- Resident & Patient Rooms, especially when turning over space for new patients.

Stationary Unit Ideal For:

- Dumpster and Compactor Rooms

Available in	Item Number
M130 Vapor Phase Unit	#579100
S130 Vapor Phase Unit	#570001

WAXIE Inventory Centers

WAXIE Sanitary Supply's Inventory Centers are strategically located throughout the Western United States. Each Inventory Center carries a full supply of sanitary products and equipment to quickly and efficiently meet your sanitary maintenance needs. Additionally, WAXIE has vast resources to vendors that can supply us with products to assist you with many other product needs that you may have. Just ask – we will do our best to assist with specialty items not shown in our current product offering.

Each modern, clean Inventory Center also has a showroom and Customer Service Center to help you determine which product is best for you and to provide ordering assistance.

As the true single source for all your maintenance requirements, you can depend on WAXIE's knowledgeable sales consultants, high-quality and effective products, equipment and procedural training, friendly customer service representatives, and total inventory management to minimize costs, simplify logistics, eliminate hassles, and maximize your satisfaction.
