

Fresh Wave[®] IAQ Laundry Additive is a targeted, natural, non-toxic, and environmentally friendly odor problem solver. It is safe to use around people and pets. It will effectively remove lingering odors from commercial fabrics in a single rinse cycle without using caustic chemicals or scented masking agents.

1 Gal Laundry Additive (RTU)
#530020

Standard Household Washing Machine

Large Commercial Washing Machine

APPLICATIONS:

Many commercial detergents are designed to remove dirt and stains but fail to adequately address odor issues. Use Fresh Wave[®] IAQ Laundry Additive in addition to detergent to eliminate odors from "problem laundry," including urine, feces, vomit, perspiration, smoke, must, mildew and fuel oil. Bottom-line advantage? Only one cycle will be required, resulting in the use of less water, less energy, and most importantly, less labor!

DELIVERY:

Fresh Wave[®] IAQ Laundry Additive is perfect for eliminating problem laundry odors in all types of fabrics. It is particularly effective at eliminating odors caused by bodily fluids such as urine, feces, vomit and perspiration.

For the most effective application of Fresh Wave[®] IAQ Laundry Additive, add to the rinse cycle of the washing machine.

- **Standard household washing machine:** Add 2 to 3 ounces of the ready-to-use (RTU) Laundry Additive to the rinse cycle (Rinse cycle = 20 Gal/water)
- **Commercial washing machine:** Add 3 to 5 ounces of the Laundry Additive Concentrate to the rinse cycle per 100 pounds of dry fabric.
- Increase by ounce for more severe odors.

IDEAL FOR:

- Soiled clothing impacted by urine, feces, vomit, perspiration, fuel oil or fishing odors
- Soiled Linens
- Towels
- Microfibers
- Uniforms
- Athletic Equipment

AVAILABLE SIZES:

- 1 Gal RTU: WAXIE Item #530020 4/cs
- 5 Gal RTU: WAXIE Item #530021 (BIB)
- 5 Gal Concentrate: WAXIE Item #530008 (BIB)
