

# GUMWAND

Portable | Efficient | Effective

## GUMWAND

***Clean anywhere, anytime***

Gumwand is simply the best chewing gum removal system available today. It's a unique solution to a sticky problem and can be operated by one person, without the need for expensive generators, trailing cables or vehicular access. It is the perfect solution for gum removal on pavements, sidewalks, concrete and carpet (yes it even works indoors!) Gumwand is ideal for government, schools, universities, transport hubs, cinemas, shopping malls, contract cleaners and facilities management contractors.

## UNIQUE CLEANING SOLUTION

***Breaks down chewing gum on a molecular level***

In seconds, the Gumwand solution transforms unsightly gum into a powder that can be easily brushed away without damaging the underlying surface. All thanks to our unique sugar beet based detergent and the Gumwand lance. Use 1 bottle of concentrate per tank and fill the rest of tank with water.

## ACCESSORIES FOR ALL FLOOR TYPES

***Different brushes for different applications***

The Gumwand has two different brush head options including brass brushes for cleaning hard surfaces, and nylon brushes for cleaning carpet, entrance mats and more delicate floor surfaces.

- ✓ **PORTABLE**  
*The only portable chewing gum removal machine with its own power source.*
- ✓ **EFFICIENT**  
*Ultra quiet, lightweight self contained unit with no water runoff.*
- ✓ **EFFECTIVE**  
*Can remove up to 750 pieces of gum per hour without damaging concrete, asphalt or carpet.*
