

SLI Light Globes

Incandescent Lamps

- Last at least twice as long as standard light bulbs from General Electric, Osram/Sylvania and Phillips
- Multi-filament supports increase light bulb life
- Vibration service bulbs are able to withstand shock, vibration and abuse
- Brass base does not oxidize or freeze in the socket for easy removal

Flood Lamps

- Multi-filament supports increase light bulb life
- Vibration service bulbs are able to withstand shock, vibration and abuse
- Brass base does not oxidize or freeze in the socket for easy removal

Halogen Flood Lamps

- Meet industrial/commercial standards for life and lumen output
- Brass base does not oxidize or freeze in the socket for easy removal

Fluorescent Tubes

- Terra-Lux linear fluorescent lamps designed to pass the Toxicity Characteristic Leaching Process (TCLP) for mercury content without sacrificing life, light output or lumen maintenance
- Industrial/Commercial quality meets standards for life and lumen output

Compact Fluorescents

- 10,000 hour average rated life
- Meet industrial/commercial standards for life and lumen output
