HERE ARE SOME QUESTIONS TO START

WHAT STYLE DO YOU LIKE?

WHAT ARE YOU COLLECTING?

WHAT CAPACITY DOES YOUR SPACE NEED?

WHAT COLOR COMBINATIONS DO YOU LIKE?

WHAT WOULD YOU LIKE TO COMMUNICATE?

45 GALLON SPLIT TOPLOAD

Sleek black panels with brown accents. Shown in a 45 gallon split double with two 22 gallon internal liners for two stream collection in a compact footprint. User friendly top deposit with clear labels to identify your streams.

12 GALLON DOUBLE SIDELOAD

Side deposit mini-recycle Station with 12 gallon rigid liners in each compartment will match other coordinated receptacles.

45 GALLON TRIPLE SIDELOAD

Large centralized recycle station in an attractive two tone color configuration. Side deposit with optional Vail roof. Center unit with classic N2 framed opening for waste with restrictive openings on the compartments.

22 GALLON SINGLE TOPLOAD

Slim profile tucks neatly against a wall or in smaller spaces. Ergonomic service door with internal rigid liner. Optional opening IDs and side panel recycle symbols send the right message.

32 GALLON TRIPLE TOPLOAD

Split color top, with restrictive opening shapes and material specific opening IDs, really identifies the separate compartments for all users. 32 gallons is an ideal capacity for high traffic indoor areas.

22 GALLON DOUBLE

Split color compartments are the best way to communicate the different recycling and waste streams. Optional headerboard with custom graphics allows you to prominently display what goes where.

38 GALLON WITH CURVED ROOF

Clean and simple monochrome in desert tan. Restrictive opening for commingled mixed recycling with matching opening label and recycle symbol will ensure a clean sort.

45 GALLON SPLIT DOUBLE

Maximum collection capacity in a compact space. Our 45 gallon footprint using two 22 gallon liners to capture waste as well as separate recyclables.

22 GALLON CONFIGURATION

Our new 22 gallon configuration provides an additional stream without allowing more material to be collected than desired. Perfect for your new compost program or minimal landfill capacity as you move to zero waste.

26 GALLON VAIL TOP

Classic two tone black with brown accents. N4 arched opening with simple label at the top of the ergonomic service door. Optional Vail top makes this ideal for indoor or outdoor spaces.

45 GALLON DOUBLE

Bold two tone, two stream station with traditional Flat top. Standard large opening for the waste stream with helpful restrictive opening for mixed recycling.

32 GALLON TRIPLE

Large capacity indoor triple recycle station for high traffic areas. Forward Vail top with easy to use topload restrictive openings and clear opening IDs. Two tone color allows the front service doors to highlight the N4's curved trim.

12 GALLON DOUBLE

Simple and professional monochrome gray base allows the optional split color top to identify the two streams collected in this compact 12 gallon station.

26 GALLON TRIPLE

26 gallon triple N6 unit shown with split color Compartments. Perfect for recycling programs which separate compost or other recyclables. Symbols and opening ID's help make this recycle station incredibly effective.

32 GALLON DOUBLE

Our accomplished Orange County Convention Center solution. Two tone with custom graphics and logos with messaging on the recycling panels. Vail top and safety conscious "Slow-Stay" hinges are friendly to service personnel.

55 GALLON SPLIT ROUND

We've modified our classic design to provide improved communication with full graphic panels on both side. Separate half-moon internal rigid liners are easily accessible through the removable service tops.

32 GALLON ROUND

Keep unwanted items, such as rain, snow, pests, and recyclables out of your waste stream with our domed lid on this proven outdoor receptacle.

40 GALLON ROUND

Our traditional outdoor round shown perched on the optional permanent mounting post. Keeps animals and vandals from tipping or moving the unit.

COORDINATE YOUR SPACE

CHOOSE FROM A VARIETY OF SITE FURNISHINGS

PRIDE OF OWNERSHIP

Your property or facility may require various receptacles in unique configurations and capacities to best suit each space and location. The numerous styles and options available will allow you to meet those needs yet maintain a consistent well designed recycling program throughout, resulting in your recycling success. Add our matching site furnishings to further impress all employees, guests and customers!
