**YOUR ESD FLOORING SOLUTIONS PROVIDER**

**Creating an ESD Floor is as easy as  
1, 2, 3 with  
Statguard<sup>®</sup> Floor Maintenance Products**

## **Statguard<sup>®</sup> Floor Care System**

### **1. Statguard<sup>®</sup> Stripper**

Unlocks our ESD polymers with the least amount of labor while minimizing the pH level needed to rinse and neutralize. The Statguard<sup>®</sup> Stripper can save one or two labor rinse steps which cuts down labor time and can save you money. Typically 80% of the cost of maintaining a tile floor is labor. Cutting down the labor time is a savings to both the Building Service Contractor and the Customer.

### **2. Statguard<sup>®</sup> Neutralizer**

Saves rinse steps to bring your stripped floor to the correct pH level before you apply our Statguard<sup>®</sup> Dissipative Floor Finish. Again, saving steps is saving time and cost. Reaching the correct pH level ensures the proper hardening of our finish and will help extend the life of the floor.

### **3. Statguard<sup>®</sup> Dissipative Floor Finish**

Exceeds the required limits of ANSI/ESD S20.20 for Resistance (operator grounding) of  $<1.0 \times 10^9$  ohms when tested per ASTM/ESD STM97.1 and Operator Charge Generation of  $<100$  volts when tested per ASTM/ESD STM97.2 when proper ESD footwear is used. UL Listed for slip resistance.

## STATGUARD® FLOOR STRIPPER

Strips resilient floors with low ph formula, reducing rinse time and cuts labor costs by 20% over conventional strippers.

**Item**                      **Size**  
88DEC46020      2.5 Gallons

Statguard® Flooring has tested some of the most popular floor finishes. Evaluate the test results shown below and you will see that Statguard® Flooring is clearly the high-performance, low cost leader.

Brand	Statguard®*	Brand A*	Brand B*	Brand X*
Resistance in Ohms				
RTT (RH @ 10%)	2.45 x 10 <sup>8</sup>	5.4 x 10 <sup>12</sup>	2.45 x 10 <sup>10</sup>	9.7 x 10 <sup>11</sup>
RTT (RH @ 50%)	3.04 x 10 <sup>7</sup>	3.0 x 10 <sup>10</sup>	5.18 x 10 <sup>7</sup>	3.5 x 10 <sup>10</sup>
RTT (RH @ 75%)	2.64 x 10 <sup>7</sup>	1.1 x 10 <sup>7</sup>	1.04 x 10 <sup>7</sup>	1.1 x 10 <sup>9</sup>
Slip Resistance				
RH @ 10%	0.530	0.382	0.646	0.480
RH @ 50%	0.562	0.452	0.482	0.510
RH @ 75%	0.540	0.579	0.377	0.518
Pass = > 5.0	PASS	FAIL	FAIL	FAIL
Cost per Gallon	\$42	\$48	\$56	\$28
Applications/Year	6	6	6	12
Dry Time per Coat	45 min.	240 min.	45 min.	45 min.
Total Material	\$1260	\$900	\$1350	\$1680
Total Labor	\$900	\$1350	\$1150	\$1800
Total Annual Cost	\$2160	\$2790	\$2830	\$3480

## STATGUARD® ESD FLOOR NEUTRALIZER

Save on labor -  
Neutralizes the pH left behind by the floor stripping process .

**Item**                      **Size**  
Special order      2.5 Gallons

## STATGUARD® LOW-VOC DISSIPATIVE FLOOR FINISH

Low-VOC formula does not contain zinc, meets CARB and other regional VOC requirements.

**Item**                      **Size**  
938127      2.5 Gallons

## STATGUARD® DISSIPATIVE FLOOR FINISH

Provides a high-gloss ESD finish that stands up to heavy traffic. Resists heel marking, resulting in less maintenance. Quick dry time saves time and money.

**Item**                      **Size**  
938121      2.5 Gallons

Made in the  
United States of America

# Other Quality Maintenance Products

## STATGUARD® ESD FLOOR CLEANER

Labor saving dissipative cleaner that leaves floors clean and free of insulative film with no rinsing.

- Does not leave insulative residues behind
- Cleans dissipative and conductive floors and tiles
- Formulated with dissipative agents that rejuvenate the properties of Statguard® Floor Finish

Item	Size
328601	2.5 Gallons

## STATGUARD® FLOOR MAT CLEANER

Used to remove dust, grease, grime, shoe prints, and other contaminants from ESD mats to maintain the performance of mats.

- Simple application does not require additional rinsing
- Contains no chemicals that will damage mats

Item	Size
Special order	1 Quart Spray

## REZTORE™ ANTISTATIC SURFACE & MAT CLEANER

Spray on or use wipes to remove dust, grease, grime, fingerprints, solder flux, and other contaminants from ESD mats and other surfaces.

- Will not degrade the surface's ability to drain charges
- Does not contain silicone or other substances that will leave an insulative residue on surfaces

Item	Description
Special order	16 oz. Spray Bottle, Case of 12
Special order	Canister of 160 Wipes

## OMEGA FIELD VACUUM

High performance, completely self contained, field service ESD protected vacuum. Designed to work in and around sensitive electronic equipment.

- For cleaning of automated insertion machines, copiers, computers, printers, lab equipment, x-ray machines, etc.

Item	Description
Special order	ESD Omega Vacuum, 120 VAC
Special order	Replacement Filter, 0.3 Micron

## ESD TRASH RECEPTACLES

Replace high charging plastic trash cans with ESD protective ones.

- Static dissipative surface of  $1 \times 10^6 < 1 \times 10^9$  ohms
- Impregnated corrugated material; greater durability than coated or printed material
- Made in the United States of America

Item	Description
Special order	Trash Receptacle, Small, 12-1/2 in. x 10 in. x 14 in.
Special order	Trash Receptacle, Large, 21 in. x 12-3/4 in. x 28 in.
Special order	Trash Receptacle Liner, Small, 12-1/2 in. x 10 in. x 14 in., 10 Gallons
Special order	Trash Receptacle Liner, Large, 21 in. x 12-3/4 in. x 28 in., 36 Gallons

Liner sold separately

## ESD AREA SIGN

Easy way to identify an ESD protected area.

- May be used to set up a temporary ESD work area
- Convenient – can be moved where needed
- Dimensions: 24 in. Tall and each panel is 12 in. Wide
- Resilient, durable Plastek™ material
- Hand hole at the top for ease in moving
- Made in the United States of America

Item	Description
Special order	ESD Area Sign

## AISLE MARKING FLOOR TAPE

Designate an area as static sensitive.

- Scuff-resistant vinyl plastic
- Quick-stick adhesive
- 3 in. x 54 ft.
- Made in the United States of America

Item	Size
Special order	3 in. x 54 ft.

## Statguard Flooring Guarantee

We are proud to be leaders in the industry for over 20 years. Statguard® ESD floor care is the choice of businesses that require ESD floor protection to meet today's S20.20 standard. Once the Statguard® Floor System is installed, we test the floor for the life of the floor at no charge to the customer. Our NARTE Certified Field Managers will set up a program where the floor will be periodically tested at the customer's convenience.
