Cleaning Versatility

Microfiber mops can be used on any number of surfaces, including walls, ceilings, partitions and virtually any smooth, hard surface you need to clean!

Microfiber Tube Wet Mops

- Very absorbent
- Minimum five times the launderability of traditional yarn mops
- With microfiber, less chemical is required
- The textured finish loosens and holds dirt until washed
- Priced competitively with traditional blended looped yarn mop heads, yet outperforms traditional mops in both cleaning and durability
- All mops have wide canvas or mesh headbands (as indicated) and tailbands with the blue, red, green or white microfiber for color-coding
- Canvas headbands are longer lasting
- Mesh headbands are textured for scrubbing

Color-Coded

Flat mops are available with blue, red or green banding for color-coding to prevent cross-contamination and simplify the cleaning process. Each pad can be quickly and easily identified according to procedure, room or area.

Dust Mops

Microfiber Pads – Fringe Dry/Dust Mop

- Have all the benefits of microfiber without having to replace standard frames and handles
- Cut-end microfiber with fringe to pick up larger particles of dust and trash
- Poly/canvas backed microfiber mops attract and hold dust that cotton mops leave behind
- Canvas backing is color-coded by size: yellow – 18", green – 24", red – 36", blue – 48" and gray – 60" & 72"
- The mop attracts dust electrostatically and requires no treatment
- Envelope style backing eliminates problems created by ties or snaps while still using traditional 5" dust mop frames
- Extra padding in the mop allows for complete surface contact

Item	Description	Color	Size	Packaging

Less Water for Mopping

"An average worker uses **up to 21 gallons** of floor cleaning solution for **traditional** string mopping during one shift. With **microfiber**, the solution can be reduced to **as low as 2 gallons**. Because less water is used, there is **less liquid on the floor** allowing it to **dry faster**, which helps **reduce** the potential for **slip-and-fall accidents**."

The WAXIE Fast Glide™ Mopping System

Outperforms the competition at every level with the innovative features you have come to expect from WAXIE!

Tired of carrying around a mop bucket or wringing out soggy mop pads? The WAXIE Fast Glide™ Mopping System eliminates the need for all this. It works in any application from house cleaning and maintaining gymnasiums to cleaning hospitals. It is ideal for cleaning areas where conventional buckets and wringers are impractical.

Interchangeable components such as the easily assembled frames, mop heads and removable bottles allows the user to stock multiple options on the maid's cart. From damp mopping to dusting, neutral cleaner to disinfectant, and hook-and-loop attaching heads to pockets, every option for every job is at your finger tips!

- Complete system includes 16" Velcro® frame, 32 oz. dispensing bottle, and 54" handle
- Removable dispensing bottle features a wide opening for easy filling and cleanout
- Swap-n-go modularity allows for easy switch-outs of dispensing bottles, frames and heads
- Translucent graduated dispensing bottle identifies fill level in both ounces and milliliters
- Durable, ultra-light construction reduces user fatigue
- Easy to hold ergonomic end-of-handle TPR ball swivels for smooth operation

Click-On/Click-Off flow actuator works like a ball point pen to reduce hand fatigue. No need to continually squeeze the trigger.

360 Degree Rotating Handle cap reduces user fatigue and provides smooth figure eight application.

Sliding Handle Hook makes storage simple.

Large, Easy-to-Fill, Tethered Cap boasts an integrated hanger to store multiple bottles on maid's cart.

Removable Bottle incorporates a top and bottom cap to assist with clean-outs.

32 Ounce Capacity Bottle includes fill level graduations in ml and ounces. Bottle end is threaded for easy removal and cleaning.

Bottle Site Gauge clearly identifies inventory levels to zero milliliters.

All-Stop Ball-Valve ensures a positive on and positive off flow control unlike competitors with unreliable pinch valves.

Bilingual Chemical Identification labels included.

Viton Seals ensure confident operation with a variety of heavy duty chemicals.

Heavy Duty Frame and 360° swivel.
