Hydrogen Peroxide Cleaner Disinfectant Portfolio
Ready-to-use one-step cleaner disinfectant wipes and spray

The fastest non-bleach contact times in a portfolio formulated for patient and staff comfort

A full breadth of ready-to-use disinfectants engineered with a patented activated hydrogen peroxide formula — for the speed your job requires and the excellent product aesthetics you want on a daily basis.

- **Speed**: The fastest non-bleach contact times available
- **Compliance**: Can meet all bacteria and virus contact times with one wipe
- **Value**: Covers greater surface area with fewer wipes, versus PDI® Super Sani-Cloth® and CaviWipes™

**Speed: The fastest non-bleach contact times on the most important pathogens**

- 30-second to 1 minute contact times on 32 bacteria and viruses
- Up to 4x shorter contact times than PDI® Super Sani-Cloth® wipes
- More EPA-registered kill claims for antibiotic-resistant organisms than PDI® Super Sani-Cloth® wipes and CaviWipes™ combined

Why speed matters

If your wipe cannot keep a surface wet for its entire contact time, it can cause costly rewiping or — if the surface is not rewiped — leave the surface not disinfected. Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes meet all bacteria and virus contact times with one wipe, helping your team ensure compliance for better patient outcomes. You should not have to worry if your team is using a second wipe to be compliant.

**Compliance: Keeps surfaces wet for all bacteria and virus contact times**

Excellent product aesthetics:
- For use in the most sensitive patient areas
- No harsh chemical odor or fumes
- Light, naturally occurring fragrance
- Nonflammable, unlike quaternary ammonium-alcohol-based wipes
- No volatile organic compounds (VOCs)

Broad healthcare surface compatibility:
- Noncorrosive: does not leave a solid residue that can damage your equipment over time
- CHP is recommended for plastics, laminated surfaces, sealed fiberglass and other acrylic-coated surfaces, whereas isopropyl alcohol will attack some forms of plastic, rubber and coatings*

Surface materials: Stainless steel, vinyl, painted metals, glass, baked enamel, chrome, glazed tile, glazed ceramic, glazed porcelain, porcelain enamel, laminated surfaces, painted surfaces, plastic, sealed fiberglass.

Strong and durable wipes
For powerful cleaning and greater durability:
- 4x stronger than PDI® Super Sani-Cloth® wipes
- 3.5x stronger than CaviWipes™

A complete ready-to-use portfolio for every need and job:
A full selection of ready-to-use activated hydrogen peroxide products for everyday disinfecting throughout your facility. Includes two economical refill packages for cost and waste efficiencies.

**CLINICAL SURFACES**
