

eXpunge Plus

2-in-1 SPONGE

eXpunge eliminates, eradicates, and erases dirt and stains on most hard surfaces.

Water, the **eXpunge**, and a little elbow grease are needed, no other cleaning chemicals required.

Only apply enough pressure to clean the surface.

Amazingly effective on bathroom tile, counter tops, baseboards, floors, removing scuff marks, crayon and markers. Try it on your most challenging surface stains.

*When using the eXpunge on polished surfaces, soft surfaces like wallpaper or other textured surfaces, or on finished or painted surfaces please test in an inconspicuous place since rubbing too hard could remove the finish or dull the texture. The eXpunge can be reused after it has dried out by simply reactivating with water.

DO NOT USE WITH CHLORINE BLEACH.

eXpunge Plus | Item # 350510

The eXpunge is made from melamine which originally developed as a filtration media.

An urban legend has it that a Japanese draftsman was working at his drafting table and spilled a glass of soda.

The only thing within reach was a piece of melamine filter which he grabbed to wipe off the soda. To his amazement, he also wiped off years of ink and marker stains.

The rest is history...
