

## Food Processing Disposable PPE Clothing

Same Protection with Significant Savings  
WAXIE offers personal protective garments  
for every type of food processing facility.

- Canneries
- Fish processing
- Food packaging
- Industrial rendering
- Dairy plants
- Meat packing & processing
- Breweries

# PERSONAL PROTECTIVE EQUIPMENT FOR FOOD PROCESSING

The possibility of food and product contamination should be of major concern to any manager of a food processing facility. WAXIE Sanitary Supply should be your first choice for personal protective clothing and equipment.

Another reason for the use of disposable PPE is cost. The price for reusable garments provided by a rental service is very high when factoring in laundry and delivery costs. By using disposable PPE clothing, the cost savings is significant while offering the same protection.

## Bouffant Caps

- Provides full hair coverage
- Lightweight and breathable
