

Ultra Guard Premium Wood Floor Care Program

ULTRA PREP CLEANER AND RESTORER

WAXIE Ultra Prep Cleaner and Restorer is a multi-purpose maintenance product designed to bring out the very best in your wood floors. **WAXIE Ultra Prep** is ideal for periodic deep cleaning and scrubbing of well finished floors to remove embedded soils in preparation for new coating application. It can also be used with high-speed burnishing systems with WAXIE's Ultra Sport and Ultra Sport II waterborne coatings, to enhance floor coating gloss. Just mop or auto-scrub **WAXIE Ultra Prep Cleaner & Restorer**, let dry, and buff to brilliance.

Packaging: 4 x 1 Gal. Containers

Dilution: 2 oz. per gallon – Clean/Restore

Product coverage rate: Up to 130,000 sq. ft. per gal.

6-8 oz. per gallon – Floor Coating Preparation

ULTRA PREP

CLEANER AND RESTORER

| FEATURE | ADVANTAGE | BENEFIT |
|---|---|---|
| Polymer-Free | Reduces build-up of soiled finish, while preparing floor for high-speed burnishing. | Enhances floor finish appearance, and enhances slip resistance. |
| Multi-Purpose Floor Solution | Provides thorough deep cleaning prior to periodic high-speed burnishing and by increasing concentration, deep prep-cleaning prior to recoating. | Reduces floor maintenance expense, throughout the year as well as multiple products in inventory and the chance for incorrect products being used on the floor. |
| Specifically formulated to remove ground-in soil and marks | Floors maintain their high quality look all year long. | Extends the service life of the coating and enhances the overall appearance of the floor. |
| Use with Mop and Bucket or Auto-Scrubber | Flexible application allows it to perform well with every type of floor cleaning method. | Product boosts performance which will save time and money. Especially through an auto-scrubber. |
| Meets ASTM D2047 for slip resistance | Helps to provide a safe, clean floor surface. | Lessens potential for injuries when used as a part of a comprehensive floor maintenance program. |
