

# WAXIE Pro™ After Rinse Encapsulating Carpet Rinse

## DESCRIPTION

Specially formulated fabric rinse that is used by professionals on carpet and upholstery. This low pH solution may be used as the final step in wet cleaning. *WAXIE Pro After Rinse* will remove any remaining residue, help prevent browning or yellowing, and leave the fabric with a soft feel. As an added benefit, it will help prevent rapid re-soiling. It is ideal for most carpets, and is especially recommended for oriental and all white or pastel colored synthetic carpets. *WAXIE Pro After Rinse* can be sprayed after shampooing or used in hot water extracting to balance the pH.
