

WAXIE-Green™ Encapsulating Carpet Extraction Cleaner

DESCRIPTION

A concentrated heavy-duty cleaner that can be used with any type of carpet extraction equipment including equipment with solution heating systems. This encapsulation formula combines unique crystalline polymers that provide one pass cleaning power to emulsify dry and oily soils, while encapsulating left over residue for vacuum recovery. The product has built-in odor control technology, while eliminates the need for rinsing, as it leaves no sticky residue, and will eliminate rapid re-soiling. The WAXIE-Green™ encapsulating process will extend time between cleaning cycles by keeping carpets cleaner longer, extending the overall life of the carpet and dramatically reducing the labor associated with cleaning carpets. Pleasant fresh fragrance.
