

WAXIE-Green™ Encapsulating Carpet Spotter

DESCRIPTION

Ready-to-use product that is perfect for general purpose spotting of a wide range of spots. The products encapsulation technology combines unique crystalline polymers that provide the cleaning power to emulsify dry and oily soils, while encapsulating left over residue for dry vacuum recovery. No rinsing is required, and the product prevents re-soiling and wicking while eliminates rapid re-soiling. This all leads to carpets staying cleaner longer and helping to reduce the overall cost of maintaining carpet. Each case comes with four sprayers.
