

# WAXIE Bombers Industrial Strength Stripper

Item: 320824 gl 4/cs  
Item: 320822 5 gl drum  
Secondary Label: 320824LBL

## APPLICATION

## FEATURES & BENEFITS

- Professional-strength
- Non-ammoniated
- Mild odor
- Fast-acting
- High productivity

## DESCRIPTION

Ultra-strength stripper formulated for removing extra-heavy buildup of waxes, floor finishes and sealers. Non-ammoniated, mild odor. Can be used on all modern resilient and hard surface floors.

## SPECIFICATIONS

	AS SOLD	USE DILUTION
Appearance .....	Amber liquid .....	Colorless to yellow
Odor .....	Solvent .....	Slight solvent
pH.....	12.0-14.0 .....	10.0-12.0
VOC .....	N/A .....	N/A
Melting Point/Freezing Point .....	Not determined .....	Approx. 0°C (32°F)
Initial Boiling Point/Boiling Range .....	> 99°C (210°F) .....	Approx. 100°C (212°F)
Flash Point .....	N/A .....	N/A
Flammability .....	N/A .....	N/A
Relative Density (Density).....	1.04 (8.67 lb/gal).....	Approx. 1.0 (8.34 lb/gal)
Solubility .....	Completely soluble in water ...	Completely soluble in water

## ACTIVE INGREDIENTS:

Potassium Hydroxide Solution .....	Proprietary <sup>1</sup>
1-Amino-2-Propanol .....	Proprietary
2-Butoxyethanol.....	Balance

<sup>1</sup> The exact percentage of composition has been withheld as a trade secret. All relevant physical and health hazards have been declared, in accordance with regulatory requirements.

**SHELF LIFE:** All WAXIE brand chemical products have a guaranteed shelf life of up to one year after the date product was manufactured, when stored in ambient conditions. The actual manufacturing date is included in a date code on every product container.

## DIRECTIONS FOR USE

Wear safety goggles and Latex, Nitrile or Neoprene gloves for you protection when handling this product.

Using a mop, sprayer or sprinkler can, liberally apply solution to the floor and let it work for 5 to 15 minutes (do not allow to dry). Machine scrub with a synthetic stripping or buildup removal pad. Pick up old finish and soil with a wet/dry vacuum or with a mop and bucket. Rinse thoroughly. For best results, a neutralizer should be used in the final rinse. Let floor dry completely before recoating.

For detail work and baseboards, use a trigger sprayer to liberally apply solution onto baseboards and edges and into corners. Let solution work for 5 to 10 minutes (do not allow to dry). Agitate with corner brush or a heavy-duty synthetic pad. (Use caution to avoid scratching baseboards with a synthetic pad). Rinse and let it dry. (We do not recommend applying finish to baseboards unless they are very worn and faded.)

# WAXIE Bombers Industrial Strength Stripper

## DIRECTIONS FOR USE (CONTINUED)

**NOTE:** *WAXIE Bombers* is formulated for extreme buildups and should not be used for normal maintenance. When using *WAXIE Bombers*, never let it dry; always keep it fluid. On old floor surfaces, test a small, inconspicuous area first a dilution of 32 ounces of *WAXIE Bombers* to 1 gallon of water (1:4) to determine resiliency and compatibility. If there are any adverse effects, discontinue the use of this product immediately. **Extremely Heavy Buildup:** Dilute 21 ounces of *WAXIE Bombers* to 1 gallon of water (1:6). **Heavy to Medium Buildup:** Dilute 8 ounces of *WAXIE Bombers* to 1 gallon of water (1:16).

**NOTE:** Do not allow concentrate to touch floors. Not for use on asphalt or linoleum floors.
