

Grouted Tile Maintenance System

GROUT GUARD

PERMANENT PENETRATING
SEALER FOR GROUTED
TILE SURFACES

ITEM #931184

WAXIE Grout Guard is a tough, permanent, high solid, water-borne sealer that penetrates deep into grout and repels soil and germs while improving slip resistance. This protection will dramatically reduce maintenance costs, due to the ease of cleaning. Dual cross-linking polymer makes this seal ultra-durable against wear and soil and bacteria penetration. Highly resistant to acids, bases, and stains. High solids formula fills pores in grouted surfaces. Very low odor and meets or exceeds VOC regulations in all 50 states. Improves traction on floor to decrease slips and falls.

Grouted Tile Maintenance System

GROUT GUARD

PERMANENT PENETRATING
SEALER FOR GROUTED TILE SURFACES

Features

Advantages

Benefits

Proprietary waterborne acrylic polymer sealer

Penetrates deep into grout.

Protects grout throughout, not just on the surface.

Unique dual self-cross-linking formula

Superior adhesion qualities.

Sealer will stick to almost anything.

Unique formulation cures to a protective shield

Resistant to acids, bases and stains.

Tough coating will not be damaged by harsh substances and reduces maintenance costs. Blocks soil and germs from embedding in grout which improves cleanliness and prevents odors.

30% volatile solids

1-2 coat application fills pores in grouted surfaces.

Will keep your floors clean longer while making them easier to maintain.

<91 gm/l VOC's

Minimal smell and meets or exceeds all state VOC regulations.

Returns room back to service quickly and achieves compliance with EPA VOC regulations.

Meets ASTM D2047 method for slip resistance

Provides a safe, slip-resistant surface.

Helps to reduce the potential for slips and falls.
