Third-Party Certifications

EcoLogo™ is a third-party ecolabelling program and the only standard in North America approved by the Global Ecolabelling Network, an international association of ecolabelling programs, as meeting the ISO 14024 environmental labelling standard. EcoLogo™ certification provides the assurance that those products and services meet stringent environmental standards that have been verified by a third-party auditor. EcoLogo™ certification is referenced as a requirement to meet for several categories of cleaning products in the Sustainable Cleaning Products and Materials section of the LEED® for Existing Buildings: Operations & Maintenance Green Building Rating System.

SCS (Scientific Certification Systems) is an independent certifier of environmental, sustainability, food quality and food purity claims. For cleaning chemicals, SCS certifies products for biodegradability.

Green Seal® certifies products and services that meet certain performance and environmental impact qualifications. Green Seal® is referenced as a requirement to meet in the Sustainable Cleaning Products and Materials section of the LEED® for Existing Buildings: Operations & Maintenance Green Building Rating System.

Product Name | Pack | Item #
--- | --- | ---
PDC SOLSTA Dispenser | Each | 321016
Hook-Up Kit | Kit | 321066
55# Vacuum Breaker | Each | 321057
Brass Y-Valve | Each | 321044
Ball Shut-Off Valve | Each | 321045
In-line Water Pressure Regulator | Each | 321057
Water Inlet Hose, 8” Black High Pressure | Each | 321042
Female Coupler With Water Stop | Each | 321046
Male Quick Disconnect | Each | 321046
Indoor Faucet Connector | Each | 321058
PDC Rack Holder | Each | 321013
PDC Drip Tray | Each | 321012
SOLSTA 4 Bottle Wire Rack | Each | 321014

Certification | Product Name | Pack | Item #
--- | --- | --- | ---
SOLSTA 143 WAXIE-Green Acid Cleaner Degreaser | 4/3L | 410056
SOLSTA 243 WAXIE-Green Neutral Cleaner | 4/3L | 320007
SOLSTA 343 WAXIE-Green Restroom Cleaner | 4/3L | 030120
SOLSTA 443 WAXIE-Green Citrus Hydroxyclean | 4/3L | 410061
SOLSTA 543 WAXIE-Green Glass & Surface Cleaner | 4/3L | 950110
SOLSTA 710 Multi-Purpose Disinfectant Cleaner | 4/3L | 170401

The WAXIE SOLSTA PDC (Portable Dilution Control) is a reliable low cost portable proportioning/dilution control system that attaches to the WAXIE-Green Solution Station 3-liter bottles of superconcentrates. It is designed to dispense ready-to-use solution for all types of applications ranging from bottle fill to bucket fill to auto-scrubber fill to direct spray applications. The metering tip is safely locked away in the concentrate bottle using a closed-looped insert, to prevent tampering with the dilution ratio and ensure end user cost per usable gallon.

**FEATURES**

| Low cost | All facilities can now afford cost-effective automatic proportioning means to service multi-floor buildings. |
| Small, lightweight, portable | Proportioner can travel on a maid’s cart, or to any remote location that has water access. |
| Tough and durable | Thermoplastics resist chemical corrosion combined with a robust construction that resists hard daily use. |
| Low and high flow rates for bottle and bucket fill | Maximizes on-site flexibility and minimizes training. |
| Water rinse setting capability | Flushing spout when using incompatible chemicals. |
| 1.5 turns or less to screw on concentrate bottle | Quick snap chemical bottles. |
| Built-in bucket hook | Hang over mop buckets and auto-scrubbers. |
| Utilizes a closed-loop insert installed in the chemical bottle | Safety protection for end users preventing leaks, spills, workplace contamination, also eliminates costly measuring and dispensing restocks by untrained personnel. |
| Error-free metering tip sealed inside concentrate bottle at time of filling | “Locked down” dilution ratio prevents over or under utilization of chemical and prevents servicing time. |
| Ergonomic handle and trigger | Easy-to-use valve trigger enables one-handed operation. |
| High-end on/off valve | Robust design good for millions of on/off cycles and maintains dilution accuracy. |

**PRODUCT PACKAGING**

- Plastic containers are 100% recyclable
- Corrugated boxes are made from 100% post consumer recycled content

**COLOR-CODING:**

Reduce the risk of cross contamination by identifying use in different departments and surface areas. The right color for your cleaning procedure coincides with color of the product and packaging.
WAXIE’s GPS® program consists of low environmental impact cleaning products, equipment and training for your own “green” cleaning program. Partner with WAXIE to implement an effective green cleaning program at your facility that reduces impacts on human health and the environment.

Green cleaning is a comprehensive approach to cleaning that combines chemicals, equipment, tools, disposables and communication to produce an effective and safe cleaning program. A green cleaning program is one that combines environmentally preferred products with good sound cleaning procedures, training and expertise.

**USGBC and LEED®**

USGBC (U.S. Green Building Council) is a non-profit organization of representatives from across the building industry leading a national consensus for producing a new generation of buildings that deliver high performance inside and out. USGBC’s mission is “to promote buildings that are environmentally responsible, profitable and healthy places to live and work.”

USGBC has developed the LEED® (Leadership in Energy and Environmental Design) Green Building Rating System, which is a voluntary, consensus-based national standard for developing high-performance, sustainable buildings. WAXIE is a member of USGBC and employs several LEED® (Leadership in Energy & Environmental Design) Accredited Professionals. GPS® (Green Partner Support™) serves as a guide for facilities looking to implement a low environmental impact cleaning program.
Third-Party Certifications

EcoLogo™ is a third-party labelling program and the only standard in North America approved by the Global Ecolabelling Network, an international association of labelling programs. By meeting the ISO 14024 environmental labelling standard, EcoLogo™ certification provides the assurance that those products and services meet stringent environmental standards that have been verified by a third-party auditor. EcoLogo™ certification is referenced as a requirement to meet for several categories of cleaning products in the Sustainable Cleaning Products and Materials section of the LEED® for Existing Buildings: Operations & Maintenance Green Building Rating System.

Green Seal® certifies products and services that meet certain performance and environmental impact qualifications. Green Seal is referenced as a requirement to meet in the Sustainable Cleaning Products and Materials section of the LEED® for Existing Buildings: Operations & Maintenance Green Building Rating System.
