

Taz with Orb Technology

Cleans carpet, stone, tile & grout, wood, vinyl, concrete, epoxy, and other surfaces.

Superior Orbital Mechanics

- Orbital agitation requires less time, water, chemical, and heat.
- Designed so that the pad has 100% contact with the floor.
- Orbital technology reduces splash factor when compared to a rotary machine.

Productivity

- Low handle vibration design makes this machine easy to use and prevents operator fatigue.
- One cartridge bottle of chemical lasts up to 1000 sq. ft. on carpet, 3000-5000 sq. ft. on hard floors.
- One absorbent carpet pad covers up to 700 sq. ft. depending upon the condition of the floor; pads can be machine washed.

Ease of Use

- Ergonomic, vertical handle is adjustable for different operator heights and folds down for ease of transportation.
- No tools are needed for pad replacement.

Carpet

Our low-moisture system has been engineered to clean for quick-drying and more immediate use. Maintaining your carpet with our low-chemical system will provide a more consistent appearance for your facility. Our carpet pads are oversized to allow you to clean right up to the walls and baseboards allowing you to work even faster.

Carpet Encap Scrub Pad:

Used to pre-agitate the carpet fibers

Carpet Cleaning Pad:

The primary component to extract soil from the carpet fibers.

Orb Technology

Orb Technology is a superior patented orbital mechanics system. Orbital mechanics allow this machine to vibrate and rotate at the same time; this dual -motion action sets this machine apart from the competition. This system allows the Taz to outperform any other machine on the market. It also allows it to be more versatile and work on eight different floor surfaces.

Concrete

Concrete Cleaning

Eliminate excessive waste and harsh chemicals to remove the heavy soil that has settled deep down in the concrete pores and crevices. Mount the scrub brush with the weight kit, and witness the Taz action pick and lift away the grease and grime in a matter of seconds.

Stone

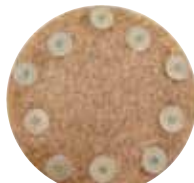

A water only process to grind, hone, and polish stone floors.

Step 1

Step 2

Step 3

40 lbs of weight can be easily added for more down pressure.

Adjustable spray nozzles allows for cleaning in any direction.

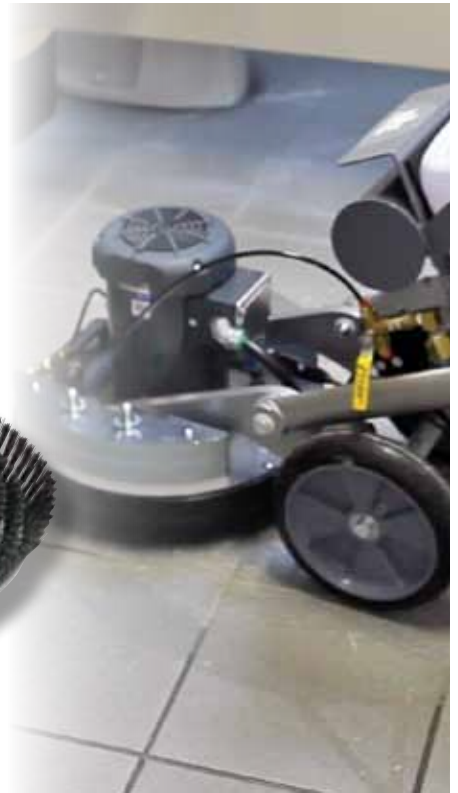

Easy fill exchange system features 3 removable 3 gallon bottle. Increases productivity & eliminates spills for safety.

Wheels and frame can be positioned to lock the machine in place during transport.

Tile & Grout

The Taz cleans tile and grout quickly, effectively, and without the use of excessive water and harsh chemicals. The brush used for tile and grout is soft enough that it will not scratch the floors yet is effective enough to scrub away tough stubborn dirt from the pores and crevices of tile and grout. The bristles on the outer edge of the scrub brush are longer to facilitate the cleaning up to the baseboards.

Scrub Brush:

The design of this brush eliminates soiled grout lines while effectively cleaning edges.

VCT

Chemical-Free Stripping!

The Taz is perfect for all of your chemical-free stripping needs. Use our chemical free pad to remove the floor finish with only water—no chemicals needed. The Taz's unique orbital action makes it possible to strip wax in very little time! Our chemical-free stripping pads are oversized to allow stripping right up to baseboards.

Step 4

Step 5

Step 6

Chemical-Free Stripping Pad:

Used in chemical free stripping.

Simple, quick pad replacement and removal; no tools required.

The Taz folds down to 30" tall which makes for easy transport and storage.

Base flips up for quick, easy & safe pad changing.

Pads & brushes are designed to clean right up to walls and baseboards.

Technical Specifications

	Taz with Orb Technology
Production Rate:	<ul style="list-style-type: none"> • Carpet: up to 7,000 ft²/hr • Chemical-Free Stripping: up to 6,000 ft²/hr • Wood: up to 4,000 ft²/hr • Stone: up to 120 ft²/hr • Tile & Grout: Varies on condition
Cleaning Path:	17"-21" diameter
Pad Weight Distribution:	100% pad contact
Pad RPM:	1725 rpm (CW), 3/8" dia. 80 rpm (CW)
Horse Power:	1
Motor Height Clearance:	13.5"

Noise Level (Operation):	59 dB
Solution Pump:	90 PSI
Spray System:	Included: (3) 3 gallon containers with 90 psi pump (applied in front of machine)
Machine Weight:	
Taz Deluxe:	102 lbs
Taz (w/o Spray System):	82 lbs
Weight Kit:	40 lbs
Dimensions:	56.1" X 29.8" X 50"
Handle Adjustment:	non-slip latch release
Wheels:	10"

Specifications are subject to change without notice.

(Optional 40 Lb. Weight Set Available)

(Unit Available Without Spray System)

Ergonomic Vertical Handle Grips For Easy Operation

Thumb-Touch Control Button System

Quick-Connect Cord

Easy Fold-Down System

Self-Priming System

3 Gallon Cartridge Bottle System

Self-Priming Control Handle

Adjustable Handle

Easy Flip-Base

Base Foot Rest

Adjustable Jets

10" Wheels

17" Pad Driver Base
