

WAXIE-Green™ Fresh Mist Liquid Microbes

DESCRIPTION

Professional-strength, general-purpose bioactive product. Contains a general-purpose consortium of beneficial microbes concentrated to 220 billion units per gallon. Recommended for use in general-purpose odor removal, cleaning of restrooms, kitchens, offices, walls, fixtures, carpets, etc.

SPECIFICATIONS

	AS SOLD	USE DILUTION
Appearance	Pink/red liquid	Pink/red liquid
Odor	Fresh, pleasant	Fresh, pleasant
pH	9.5	7.0
VOC	62 g/L (6.2%)	0.9688 g/L (0.0969%)
Melting Point/Freezing Point	0°C (32°F)	Approx. 0°C (32°F)
Initial Boiling Point/Boiling Range	99°C (210°F)	Approx. 100°C (212°F)
Flash Point	N/A	N/A
Flammability	N/A	N/A
Relative Density (Density)	Approx. 1.0	Approx. 1.0
Solubility	Completely soluble in water	Completely soluble in water

ACTIVE INGREDIENTS:

Viable bacillus cultures at 2.55 e12 CFU per gallon.....5-15%
Alcohols, C9-11, Ethoxylated 1-5%

OTHER INGREDIENTS:Balance

SHELF LIFE: All WAXIE brand chemical products have a guaranteed shelf life of up to one year after the date product was manufactured, when stored in ambient conditions. The actual manufacturing date is included in a date code on every product container.

DIRECTIONS FOR USE

Surface with heavily soiled debris or buildup should first be cleaned prior to application. Shake well before using. Do not reuse old material. Diluted concentrate must be used within a couple hours for maximum results. For best results, a contact time with the odor causing area should be from 30 minutes to as much as 48 hours before the true benefits of this product can be obtained based on the age and concentration of the soiled area.

Carpets: Always test for colorfastness first. Dilute 1 part concentrate to 25 parts water in bottle fill mode. Spray onto surface at a rate of 1 gallon per 100 square feet. Allow product to completely soak through. **NOTE:** It is not necessary to clean the carpet to eliminate odors. Persistent odor may require injection of higher concentrate (up to 1 part product to 3 parts water) into the center of the carpet. This product can be used as a pre-treatment prior to extraction or shampooing. Dilute 1 part concentrate to 25 parts water in bottle fill mode. Allow solution to penetrate for 15-20 minutes and proceed with cleaning of the carpet.

Garbage Containers/Trash Bins: Dilute 1 part concentrate to 25 parts water in bottle fill mode. Spray over the entire surface and around the containers. **Restroom Areas:** Dilute 1 part concentrate to 25 parts water in bottle fill mode or 1 part concentrate to 64 parts water in bucket fill mode. Mop, brush or spray onto walls, floors, tiles and urinals.

Item: 160116 gl 4/cs
Secondary Label: 160116LBL each

APPLICATION

FEATURES & BENEFITS

- Highly concentrated/economical
- Ultra low VOCs
- Contains microorganisms that liquefy & digest organic waste
- Biodegradable
- 100% post-consumer boxes
- 25% post-consumer, #2 HDPE recyclable plastic container
- Safer than traditional chemicals

PRODUCT REGISTRATIONS & CERTIFICATIONS

- ECOLOGO CCD-110 / UL 2792 Certified
- CACC Certified

WAXIE-Green™ Fresh Mist Liquid Microbes

DIRECTIONS FOR USE (CONTINUED)

Concentrate Vinyl Floors and Other Porous Surfaces: Dilute 1 part concentrate to 64 parts water in bucket fill mode. Spray, mop or brush onto surface. 1 gallon diluted product will cover approximately 500 square feet. **Room Deodorizing:** Place a few drops of this product in the corners of a room or in the base of artificial plants.

CAUTION: Do not store above 120°F for extended periods.

DILUTION RATIO: 1:8 (16 oz/gal) to 1:16 (8 oz/gal).
