

February 28, 2020

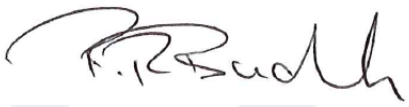

Diversey understands the threat of pathogens and the criticality of ensuring all we can do to enhance the overall environment of care. Whether it is an airport, hospital, or school, we want to help customers protect against illness.

Coronavirus has recently become a threat, and Diversey wants to ensure we have Infection Prevention Products available to all of our Distributors and Customers. For that reason, Diversey is working diligently to ensure we have ample stock of Infection Prevention Products to supply the increased demand of these critically important products.

As a result of this extraordinary need, Diversey will strive to fulfill all orders for Infection Prevention Products (Identified Below). Please plan these orders carefully, Diversey's goal is to provide products where they are needed most and used quickly to avoid a pandemic. Excess inventory orders could prevent product availability where it is needed most. **For this reason, orders placed between February 28, 2020 and March 31, 2020 will be ineligible for return to Diversey.** If this health threat extends beyond March 31, 2020 Diversey will revise this date, and will inform you of the revision.

Please contact your local Diversey Sales Representative for more information on the Diversey complete line of Infection Prevention Products.
