

COVID-19 SUPPLY CHAIN DISRUPTION UPDATE

March 6, 2020

Dear Partners:

Due to the Coronavirus Outbreak (COVID-19), EarthSafe is facing an unprecedented amount of orders for its Products. We are experiencing increased call volumes and e-mails. Please bear with us as we navigate this current situation.

We apologize for the delay in providing production and delivery schedules for our Electrostatic Sprayers. With disruption in our supply chain manufacturing was significantly delayed. We now have an estimated time frame for delivery.

Sprayers will be shipped via sea freight towards the end of April for an end of May landed date. In the event you would want to expedite delivery for mid to late April, we are providing the option of having products currently in back order to be air freighted. There will be an added cost of \$50 for each handheld unit, and \$75 for each backpack unit for this expedited option. Please inform us whether you need expedited units no later than March 28, 2020.

We thank you in advance for your patience during this time.

EvaClean Team
